

Name: Shaheryar Amir
Roll No: 23L-0828
Section: 6th D.

S1 A national ... committee review.

Waterfall best suits for it.
As deadline is fixed and
each and everything is documentate
so that's why these Properties
suits best Waterfall.

S2 A software development... cycles.

Spiral model suits best. As
there are risk. So it is under
concern. And there are also
possible cycles. So because of
cycles and risk issue. The
best suitable is ~~as~~ spiral.

S3 An e-learning... to full develop.

Prototype is best fit for this
model. As there is demo of
Project. And also update on
basis of feedback which
is Property of Prototype.

54 A smart city ... under development.
Incremental Model. As divided
in modules. And each module
deploy with passage of time
and usable for the
users.

55 A Pharmaceutical ... certification-
V-Model suits best. As with
each step there must be
testing in that scenario so
it is also part of
V-model.

56) A large insurance ... refinement.
Unified Process model suits
best as their is OOP
and UML design.

57) A regional ... iterative work.
Waterfall Model suits best
as clear each and
everything and also want
proper documentation-

58)

A cyber security firm... next phase.
Best choice is spiral
as require to decrease risk.
Again test, feedback & better so
spiral method suits
best.

59)

A non-Profit... improvements.

Prototype model suits best.
As requirements are not clear.
Also early test on that basis
feedback development done. So
Prototype suits best.

510)

A telecommunication... remaining modules.

Incremental model suits best.
As with each module
can deploy. So user can
start use app before full
completion. So each new
release extends functionality - So
Incremental suit best.

2 A Provincial... across Province.

a) Q A:- Water V-model. as requirements are documented and approved. Along with testing why V-model from QA. To check test results. To validate it.

b) Software Developer:- Incremental model. As it allows to focus on one module at time.

What influence.. The choice is because of dividing project into modules. So this influence it.

c) As Provisional Atit:- Waterfall V-model. To compliance. Heavy documentation.

Factors:- Legal traceability of Property ownership. Verify that all follows law. Documentation for audit.

Final Decision:- The Provisional
aditor General preference should
be Prioritize.

Justify:- A legal & government critical
system. Requires high accurate &
reliable - Also complete documentation
So V-Model is best for this
Project.
